HAMLIN, JONES COUNTY, TEXAS, FRIDAY, JUNE 19, 1934.

NUMBER 34.

HAMLIN PICTURES TAKEN FOR SHOW

Wednesday of this week Hamlin took a second step to be represented in the Frontier Centennial Exposition at Fort Worth. Already she has prepared a panel to be in the big Frontier Show and this week this community was "staged in Moving Pictures."

Two hundred feet of film in colors will be shown and 100 feet in black and white. The West Texas official photographer, Mr. Shy Osbourn of Abilene, did the good work. Scenes will include wheat harvesting from the broad fields, to the railroad cars, scenes of the Hamlin lakes, golf course, school buildings, churches, streets, homes, industrial plants, including the Plaster Mills, the Gen. Crude station and a large sweep of oil wells, gins, compress will be proofed and set in sequence and oil mill. This set of films with the suitable wording for the city of Hamlin and its various scenes.

REGENTS REQUEST MEMORIAL CHAPEL TO REPLACE NUDE STATUE

DENTON, June 15.—The recent controversy centered about the proposal to build a nude statue group on the Texas State College for Women (CIA) campus took on a new angle last week when the board of regents of the college presented a request to the Centennial Commission of Control that the \$25,000 appropriation be used in the erection of a memorial chapel.

The request was made following the commission of control's refusal to place the William Zorach statue on the campus.—News Bureau.

Mrs. F. W. Poe especially invites the public to attend her "Achievement Demonstration in Bed Room Improvement" in her home, east of Neinda from 2:30 to 9:00 P. M., Tuesday, June 23. Don't forget the day and date.

FARMERS will not forget that I am handling the Moutray Oil products, Gasoline, Kerosene, Distillate, Lube and Grease. Call by and let's talk it over. Get our Dock Prices and save money.

Dedicatory Services for the HALL of RELIGION at Centennial Exposition

All Texas is invited to tune-in Sunday (June 21st) at 2:15 p.m. and hear dedicatory services for the Hall of Religion—one of the most beautiful and restful buildings on Texas Centennial Exposition grounds. The building is a gift from the stockholders of the Lone Star Gas System to Texas churches.

Tune-In!

CLEAN-UP TIME LIMIT EXTENDED

HAMLIN CHAMBER OF COMMERCE CLEAN-UP CAMPAIGN EXTENDED

Due to the fact that the job of Cleaning-Up is bigger than was anticipated, the various clubs are asking for more time, and the closing time has been extended. The Chamber of Commerce and Clubs appreciate the splendid co-operation that has been manifested. We hope that this co-operation will continue.

A final date for closing this campaign will be set as soon as each club has had ample time to complete their work.

CHAIRMAN OF CIVIC COMMITTEE.

Mr. and Mrs. Joe Simpson are entertaining a big fine daughter in their home, since early of the morning of Wednesday, June 17. Eight pounds and her name up to the present time is Faith Simpson. May be more will be added to this pretty name in due time. Joe don't stay at the store much, any more.

Miss Pearl Harris is at home after spending the past school year in Bethany-Peniel College in Bethany, Oklahoma. She visited in Ada, Carnegie and other Oklahoma points before returning to Hamlin.

Mr. and Mrs. Paul Cain and little son, John Paul, returned Sunday from a visit with his parents at Alba and the Centennial.

Mrs. W. C. Russell was able to return home Wednesday after her very serious operation at the Baptist Hospital in Abilene. This information is glad news to her host of friends, more specially since she was once so near death. She is improving rapidly.

Mrs. Preston, formerly Miss Merle Hopper, recently from San Angelo, has taken a position as operator with Mrs. Wooten in the Jane Shop.

Mrs. R. Morgan and children returned last Saturday night from a trip to Laurel, Miss. She was accompanied home by her parents, Mr. and Mrs. N. J. Padgett, who will spend several weeks in this country.

The Herald is pleased to acknowledge receipt of a pretty \$1.00 check from Louis W. Walker, formerly a Hamlin boy, now in an important link of the Sears, Roebuck & Co., at St. Louis. Louis simply wants to keep up with his relatives and friends in Hamlin.

FOR SALE

One used Maytag Washer in good condition. Will trade for cows, and hogs. Also have new Maytags for small down payments and easy terms.

MIT TIDWELL. (p)

GAS SYSTEM PRESENTS

HALL OF RELIGION

DALLAS, Texas, June 15.—Dedication of the Hall of Religion, Centennial Exposition, Dallas, will be broadcast Sunday afternoon from 2:15 to 2:45 by Texas Quality Network, WFAA, WBAP, KPRC, WOAI, four of the largest radio stations in Texas, according to announcement of W. A. Scott, Hall of Religion director.

Right Reverend Harry T. Moore, Bishop of Dallas Episcopal church, will make the dedicatory address and L. B. Denning, president of the Lone Star Gas Company will speak for stockholders of the Lone Star Gas system who gave the building to the churches of Texas.

The Hall of Religion, given in recognition of the importance of church influence in the conception and development of Texas, affords all religious groups a prominent and distinctive place in celebration of the state's 100th anniversary, according to Scott.

Visitors to the Centennial will find the Hall of Religion a convenient and restful place to meet friends. It is air conditioned and cooled, contains exhibits depicting history of religion in Texas, and affords comfortable furniture, rest rooms, and a spacious outdoor patio," the director said.

The Texas Centennial

The Great Texas Centennial is Green, Yellow, Orange and Red now in full swing.

Last Saturday the Texas Press Association, and members of their families were guests of the Centennial Management.

The Texas Press Association held its annual meeting in Tyler this year, adjourning Friday afternoon, to reassemble in the Dallas City Hall Saturday morning. At this place perhaps there were 500 or 600 persons, some of whom did not go to Tyler, who met in Dallas for the advantages of the "Courtesies" granted the press.

The press of Texas is primarily the sponsors of the Texas Centennial. The Texas press has pushed for the Centennial for more than a dozen years. The press has been recognized in many ways by the Centennial management.

Saturday was a big day for all. Besides their annual "artistic metal passes" the editors were given courtesy passes for luncheon in the Nuremberg Restaurant within the grounds and free access to all the concessions—it was just too much to take in in one day and night, except the eats.

The Herald man, his wife and daughter, Miss Doris, took the short cut and met the Association in Dallas. We arrived at the Centennial grounds after nightfall on Friday evening. This was from choice, to get our first impression of the big show by the most modern system of lighting.

Folks, most Texas people are surprised at the grandeur of the Centennial. Don't get it into your minds that it is a small affair. It is as far ahead of the best Dallas State Fair as the usual Dallas State Fair is ahead of the common carnival in Hamlin.

The Texas Centennial is to our mind a showing of "An Empire State's Century of Progress." It is essentially "Texas" but nobody has yet been able to comprehend Texas. No one can comprehend the Texas Centennial within a day or two, or even a week. It is so extensive that 100,000 people can be within the gates and yet no one would think of being crowded.

We believe everybody should see the Centennial sometime before it ends on November 29. It may run longer, it likely will run more than a full solid year. Why not. This next winter 90 per cent of the days will be balmy, and even outside it will be comfortable. Inside the air is conditioned in all building except perhaps the Federal Building.

Let us suggest a few things about the Centennial:

Before going write for a copy of the Official Guide. It will cost a quarter.

Study it to familiarize yourself with the lay of the grounds.

Only a few places are "labeled" in words.

Know what is there and where it is before you go, and plan your stay systematically, and do not try to take the whole thing in in one night or a day. You can go into the grounds for 50 cents, stay till midnight and not be out another dime unless you want to eat or drink something besides water. Don't go too fast. You can spend a whole day in the Ford Building for example, and these hot days you will want to return when you feel the hot air outside. The same is true of every individual building.

It's better to enter at night. Notice the indirect lighting system (not a glare light in all the grounds) and this lighting system for such a huge affair is the first in the world. This is the first time buildings have been air-conditioned. This too, is the only Texas Centennial this generation will ever see. A hundred more years must pass—then what? Let us guess that maybe Dallas and Fort Worth will then be one great city, one mayor, one Centennial.

The Centennial lighting is worth the trip. All colors of the rainbow are presented within a certain cycle of time. The Violet, Indigo, Blue, We Fix Flats FREE

Seeks Commissioner of Agriculture Office

CLIFF DAY

Cliff Day, 47, Hale county farmer, has announced candidacy for office of Texas Commissioner of Agriculture. A native Texan, Day has farmed for 25 years. He is married and has six children. A year ago he sprang into national prominence when he led 4,500 farmers in an orderly visit to Washington in interest of national farm program. He was chairman last year of state cotton advisory board, chosen by farmers of the state.

4-H ENCAMPMENT

The 4-H girls encampment will be held at Lueders July 9-10 with 9 clubs and their sponsors taking part.

In order to attend this encampment each girl must have accomplished all her goals up to date. This means she must have equipped a sewing box, planned the "Other Vegetable" part of the family garden, made a cup towel, slip, and either smock or apron. The slips or aprons must be brought to the encampment to be judged.

Each girl will be responsible for her own bedding and food for the day and a half rally.

The clubs and sponsors taking part are:

Golan—Mrs. B. P. Byrom
Warren—Mrs. Walter Kelso
Truby—Mrs. P. D. Grogan
Hawley—

Swan Chapel—Mrs. Ethel McDuff
Avoca—Mrs. Tom Hammer
Neinda—Mrs. Amon Weaver
Goodman—Mrs. C. W. Seago
Carlton—Mrs. Gene Boyd

The chairmen of the committees, with Mrs. Amon Weaver as General Chairman, are:

Water and Ice—Mrs. Tom Hammer,
Registration—Mrs. Ethel McDuff
Recreational—Mrs. C. W. Seago
Exhibit—Mrs. Walter Kelso
Meals—Mrs. Gene Boyd

—JEWELL FAULKNER,
Co. Home Dem. Agrt.

BEDROOM IMPROVEMENT

DEMONSTRATION

"The purpose of the bedroom improvement demonstration is to encourage interest in bedrooms which will adequately meet the needs of the family from the standpoint of health, comfort and beauty," said Mrs. Earl Rennells, bedroom demonstrator in the Avoca Home Demonstration Club.

"The room should be spotlessly clean, have plenty of fresh air and sunshine and have a restful atmosphere," Mrs. Rennells continued.

Mrs. Rennells has worked especially on her bed. She has made a mattress and spring cover, mattress pad, pillow protectors, cleaned the pillows and made a mattress and a wool comfort.

BEDROOM ACHIEVEMENT

"With about 100 hours of hard work and \$7.50 in money, we have completely transformed our bedroom," said Mrs. J. S. Carman, bedroom demonstrator in the Pleasant Hill Home Demonstration Club.

"My daughter and I took out the fireplace, papered the room that has 12 foot ceilings, re-finished the floor and woodwork, papered the clothes closet and added a shoerack and shelf to it, made a writing table, refinished the furniture, added new curtains and completely equipped the bed by adding spring and mattress covers, mattress pad, long sheets and a tufted bedspread which we made at a cost of \$2.50," said

NAZARENE CHURCH

Let us honor our "Dads" by going to church on Father's Day, Sunday, June 12. Pastor's subject Sunday morning will be, "The Dignity and Nobility of Fatherhood." The pulpit will be filled Sunday evening by Rev. Claro Wendell Verner of Buckeye, Arizona.

Everyone is requested to attend both services on this Sunday, June 21. Sunday School 9:45 A. M. Preaching 11:00 A. M. N. Y. P. S. at 8:00 P. M. Preaching at 8:30 P. M.

J. H. WHITAKER, Pastor.

Rev. J. H. Whitaker, pastor Church of the Nazarene, of Hamlin, will leave Sunday afternoon for Kansas City, Mo., to attend the 9th General Assembly of the Church of the Nazarene. He is a delegate to this general meeting of his church. Delegates will be there from every state in the union, from Canada, England, Ireland, Scotland and from our twelve foreign mission fields. The pastor will be away for two weeks.

HAMLIN ROTARY PRESIDENT

IN ATLANTIC CITY

W. A. Albritton, president-elect of the Hamlin Rotary Club, left Tuesday to join a Texas group of Rotarians in a special train at Dallas for Atlantic City, New Jersey, the 1936 place of the International Assembly of Rotary Clubs.

Mr. Albritton joined the other Rotarians in Dallas on Wednesday and were guests of the Dallas Rotary Club, for a day in the Centennial grounds. This attendance meant free admission, and free luncheon, and free admission to many leading attractions. The special then headed out for the East and perhaps will arrive in Atlantic City Sunday afternoon or that night. The first session of the Rotary Conference will be Monday, June 22. What a trip!

Mrs. Tom C. Neely was able to return to her home last Friday after being in the Abilene Hospital (sometimes called the West Texas Baptist Hospital, but recently renamed "Hendricks Memorial Hospital"). Mrs. Neely had taken a minor operation and recovered rapidly.

Hon D. M. West, of Bronte, formerly a newspaper man, but now a candidate for the State Legislature from his district, was in Hamlin this week visiting with Mr. and Mrs. W. E. Benson. Mr. West should be elected to the House. He has ability and experience plus, personality and integrity.

Tom McAlester was a business visitor to Sweetwater Monday evening.

Mrs. Carman.

"I am proud of my room and know that I shall enjoy it very much even though it has taken a lot of planning and hard work," said Mrs. Carman at her achievement program June 2.

"Rambling 'Round"SEEING WHAT'S TO SEE
HEARING WHAT'S TO HEAR

One does not have to be going places or even chasing about the home streets to be "Rambling." One can ramble about mentally, or in a retrospective mood.

It is appropriate this week to compliment the Clean-Up that has been going on in Hamlin for the past few weeks.

Pay especial attention the avenues, in fact, take a "walk" and see which avenue in Hamlin has been dressed up the most. Also take a look at the large number of vacant lots, about over town that are looking like somebody lives near them.

Notice that in every case the homes on either side of the clean, unused lot looks better too. We are sure the air is better, the feeling is better and the whole neighborhood looks better.

We are not calling "names" this week, but no man needs especial compliments. Notice who's who in the clean-up. Nobody should be patted on the back for cleaning up their premises, any more than if they were to do a family washing. However, it is so rare for people to scrape and rake the alleys back of their homes—but take a peep, see how many have done that.

The Herald has observed a "City Mower" operating on the sides of the streets this week. This means, stubble, and decaying weeds—much better though, than rank growing weeds. It is clear that the best looking fronts in Hamlin are those with Bermuda grass growing out into the street to the traveled area, and kept well mown from time to time. This is fine to kill the drab, dusty appearance of the street, but requires close attention in time of a rainy spell.

Central Avenue in the olden days was kept by shovel and broom, day in and day out. Now a sweeper drifts the dirt to the curb, along with paper, rubbish, and lifts stuff all over the side walks up onto plate glass windows. The dust and rubbish is left on the curb edge until it piles up and dams up the water when rains fall.

So much for a clean-up start, for really Hamlin is just getting started in civic pride. Don't let anybody kick about mosquitoes. They are here, they were here last year and will be here next year. Perhaps they could be controlled should proper steps be taken in time. Mosquito control starts before the billions are hatched.

It may not sound well to single out the places that did nothing in the clean-up but there are many. Just take a peep. If it is a business place look at it. If it is a church grounds, look at it. If it is a residence, look what should be done. Notice the unkept lot—think of how it would look if clean and the small trees trimmed.

Rambling around from a travel found us the past week ambling off to Dallas. We kept our peepers out all the time, and expected to find a model of neatness, freshness, everything spick and span, in the Centennial City. But Dallas is a great city, has many old buildings that are tumbling from decay, no paint, not revenue paying, and thus even right down the well marked streets leading to the Centennial, the visitor, whether in auto or street car, may see lack of civic pride. Of all street in Texas, those where the millions pass

THE MARY MARTHA CLASS

The Mary Martha Class met Sunday morning at the usual hour having fifteen members present.

Miss Margaret Rowe is our new teacher and we want every member present next Sunday.

Come, and bring someone with you, also study your lesson.

CENTENNIAL COINS

Centennial half-dollars, which were placed on sale in Houston Saturday, provide for patriotic Texans more than an opportunity merely to obtain a souvenir of the centennial celebration.

The specially minted half-dollars are being sold for a dollar each. Proceeds of the sale will be used to finance the building of a Texas Memorial Museum, as it undoubtably will be, it will become of inestimable value to present day students of history and historians of the future.

Such a building is sorely needed. Priceless relics of Texas now are housed in flimsy structures which are not fireproof. There is no central museum where documents, rare old books and historical objects can be assembled under one roof where they will be available for inspection by this and future generations of Texans.

Documents, old letters, rare books and photographs are mouldering in dusty attics or musty cellars throughout Texas. There is little incentive

at present for their owners to donate them to libraries or State institutions. When this central historical shrine is completed, they will be encouraged to give this priceless material to the State so that it may be preserved as a permanent record of Texas history.

Libraries throughout the State have accumulated a large amount of this material, but since it is scattered and unindexed it is of little value. When it is collected in the Memorial Museum, as it undoubtably will be, it will become of inestimable value to present day students of history and historians of the future.

Texans should join enthusiastically in this project by purchasing the commemorative half-dollars.

Absence makes the meat grow tender

• The new Hotpoint Ranges bring you a great new gift of electricity. "Absent Cookery"—a modern miracle of electricity—enables you to cook an entire meal while you are away from the kitchen, and results are wonderful. Meat perfectly cooked and tender, vegetables tasty and healthful, pudding, pie, rolls, etc., beautifully browned and deliciously flavored.

Come in and learn the whole wonderful truth about cooking with these Hotpoint Electric Ranges. See how clean, glowing electric heat creates no "combustion dirt," keeps pots and pans, stove, walls and curtains clean.

We will show you why Electric Cookery is COOL. There is a whole lot more to this wonderful feature than the insulated oven. The beauty of it all is that you can enjoy these advantages of electric cookery and save money at the same time. See these Hotpoint Ranges today.

FEATURES

Calrod, hi-speed, clean-heat coils . . . "Chef's Brain" (automatic timer clock) . . . Thrift Cooker . . . new type oven temperature control . . . fully insulated oven . . . table-top model . . . all porcelain enameled . . . trimmed with chromium.

HOTPOINT CALROD

What Mazda means to light, Calrod means to cook. Calrod is the name given to Hotpoint's hi-speed sealed-in metal cooking coil which has revolutionized electric cookery. It brings new speed, new cleanliness and new economy to the kitchen.

THRIFT COOKER

Economical. Uses only about as much current as the kitchen light. Cooks an entire meal of meat, vegetables, dessert—or bakes small quantities, like a few potatoes, without need for heating up the oven.

BUYING BED LINENS

The first thought given in buying bed linen, such as sheets and pillow cases, is what brand to buy. Be sure that it is a reliable brand, Miss Evelyn Jennings, Fisher County Home Demonstrator, told Swedenia H. D. Club, May 19th. Rub the material together and the starch, if there is any, will fall out. Never buy any material with starch in it. It will be sleazy, when washed. It pays to get a good medium quality for ordinary use. They will be easier to wash than heavy closely woven material and are medium in price. Sheets should always be at least 108 in. long width for double bed should be 81 or 90 in. Twin beds 72 in, single beds, 63 in, cots 54 in. Smaller widths might be used for draw sheets for closed beds. Old worn sheets might be used for draw sheets. Pillow cases should be at least one inch wider than the pillow and 6 to 8 inches longer, when laundering sheets, pin on the line by one edge, using plenty of pins. Then the hems wont break in the center where the line usually cause a break from the weight. Sheet protectors, for springs are made with 8 in box sides and the mattress covers are made the same, but they button at one end. The mattress protector is a padded cover that covers the top of the mattress.

For restful sleep have soft mat-
tress, good springs and a properly
constructed bed.

Laxative combination
folks know is trustworthy

The confidence thousands of par-
ents have in good, old reliable, pow-
dered Thedford's Black-Draught has
prompted them to get the new Syrup
of Black-Draught for their children.
The grown folks stick to the pow-
dered Black-Draught; the youngsters
probably will prefer it when they
outgrow their childish love of sweets.
Mrs. C. W. Adams, of Murray, Ky.,
writes: "I have used Thedford's
Black-Draught (powder) about thir-
teen years, taking it for biliousness.
Black-Draught acts well and I am
always pleased with the results. I
wanted a good, reliable laxative for
my children. I have found Syrup of
Black-Draught to be just that."

BLACK-DRAUGHT

W. T. WALKER AND MISS

LEODES ALEXANDER

MARRIED JUNE 9TH

On Tuesday, June 9, Mr. W. T.
Walker of Hamlin, and Miss Leodes
Alexander were united in marriage
in the city of Lawton, Oklahoma.
Rev. Thompson, of the Methodist
church, of that city officiated in the
ceremony.

Lawton is near the famous Med-
icine Park summer resort, and it
was at that place the couple spent
a few days of their honeymoon.

They returned to Hamlin where
they will make their home, occupy-
ing rooms in the Walker apartments.

Mrs. Walker is a daughter of Mr.
and Mrs. Noah Alexander of the
community between Boyd Chapel
and McCaulley.

Mr. Walker is a son of Mrs. F.
I. Walker of Hamlin, and is en-
gaged in the oil business, wholesale
and retail.

FOR RENT

House in South Hamlin, furnished.
G. T. SIPE. (p)

JUNE is the month of luscious,
juicy strawberries! How quickly
they disappear! But every house-
wife, in her jam and jelly cup-
board, can store up the fleeting
fragrance of strawberries and
enjoy them in the long winter
months. No longer do strawber-
ries belong

to that sad company of fruits that
refuse to be made successfully into
jelly or jam. Bottled fruit pectin
has changed all that—and along
with bottled fruit pectin, the mod-
ern short-boil method preserves the
natural fruit fragrance and flavor.
This strawberry jam is a very
special de luxe jam—one to be
proud of when you serve it to
guests.

Sliced Strawberry Jam
4½ cups (2 lbs.) prepared fruit;
7 cups (3 lbs.) sugar; ½ bottle
fruit pectin.
To prepare fruit, cut about 2
quarts fully ripe berries in halves
lengthwise; cut large berries in
quarters.

Measure sugar and prepared fruit,
solidly packed, into large kettle;
mix well and bring to a full rolling
boil over hottest fire. Stir con-
stantly before and while boiling.
Boil hard 3 minutes. Remove from
fire and stir in bottled fruit pectin.
Then stir and skim by turns for
just 5 minutes to cool slightly, to
prevent floating fruit. Pour quickly.
Paraffin hot jam at once. Makes
about 10 glasses (6 fluid ounces
each).

TEXAS HISTORY

BY F. L. McDONALD

WEEK OF JUNE 14

1821—On June 15 several fam-
ilies at Pecan Point, Arkansas, start-
ed for the Brazos after hearing of
Austin's intended colony.

1865—A. J. Hamilton was ap-
pointed provisional governor of
Texas by President Andrew John-
son on June 17.

1865—General Gordon Granger
landed at Galveston June 19, with
1800 United States soldiers to as-
sume military command of the state,
following the Civil War, before A.
J. Hamilton arrived on July 25.

1865—General Granger imme-
diately issued orders declaring "all
acts of the governor and legislature
of Texas since the ordinance of se-
cession illegitimate," and called upon
all Confederate and State offi-
cials to repair to certain designated
places in the State to be paroled.

MAIZE WANTED

Would buy one ton of good
Maize. Will pay nine dollars for it
in barn. See me about it.

NOW—THE
New Firestone
STANDARD TIRE

NEVER BEFORE SO MANY
Extra Value Features

IN A TIRE AT SUCH A LOW PRICE

The THRIFT TIRE of 1936

FIRST LINE QUALITY—The new Firestone
Standard Tire has been designed and
constructed by Firestone skilled tire engineers
—it is a first quality tire, built of first grade
materials, embodying exclusive Firestone
patented construction features.

FIESTONE NAME AND GUARANTEE

Every Standard Tire is backed by the Firestone
name and guarantee — your assurance of
safety, dependability and economy.

LONGER NON-SKID MILEAGE

The wider, flatter tread is scientifically designed
with more and tougher rubber on the road
for long, even wear, and thousands of extra
miles.

GUM-DIPPED CORD BODY

Eight extra pounds of rubber are added to every one
hundred pounds of cotton cords by the
Firestone patented process of Gum-Dipping.
This not only provides greater strength, but
gives greatest blowout protection.

TWO EXTRA LAYERS OF GUM-DIPPED
CORDS UNDER THE TREAD</

QUESTIONS ON OLD AGE ASSISTANCE

(From the Texas Commission)

AUSTIN, June 9. — These are questions that the people of Texas are asking. Orville S. Carpenter, executive director of the Old Age Assistance Commission, answers them:

Ques.—When will first pension payments be made?

Ans.—July 1.

Ques.—Are you sure of this?

Ans.—Yes, because both STATE and FEDERAL pension money will be in the Texas Treasury. Texas was granted only recently \$1,181,250 by the United States Government.

Ques.—How many of the aged past 65 years of age will be eligible?

Ans.—As far as I can estimate now, there will be approximately 65,000.

Ques.—How much will each one receive?

Ans.—Each one will receive up to a minimum of \$30 a month, or \$15 from the State and \$15 from the United States. However, payments will be based upon need BECAUSE OF THE FEDERAL SOCIAL SECURITY LAW AND THE TEXAS LAW. People who do not need as much as \$30 will receive less. All payments considered, the average will be around \$200 to each applicant who meets the requirements of the Texas law.

Ques.—Does not the Texas law require that each applicant for assistance be investigated?

Ans.—Yes.

Ques.—Is not the organization of the Old Age Assistance Commission based upon rules laid down by the Washington and Texas laws?

Ans.—Yes.

Ques.—Is not the entire procedure for obtaining a pension required by the Texas Law and Social Security Board in Washington?

Ans.—Yes.

Ques.—Then the method in which you handle applications for assistance is mandatory upon you because of the Texas law and rules of the Social Security Board?

Ans.—Yes.

Ques.—Is it true that some payments will be only \$9 or \$10 per month?

Ans.—Yes. Payments will be based on Need. It is also true that payments will be \$30 per month to those whose needs require it. However, the general average will be about \$20 to each old person on the pension rolls. This average is in itself \$5 a month more to each needy old person than he or she could get if Texas had a blanket pension program of \$15 a month only.

AUSTIN, June 15.—This is the fourth of a series of questions asked by citizens of this State and answered by Orville S. Carpenter, executive director of the Texas Old Age Assistance Commission:

Ques.—Did the United States Government have any part in drafting the Texas law?

Answer.—The Texas Legislature drafted the Texas Old Age Assistance Law in such form as to enable Federal co-operation. In preparing the bill the Legislative Committee had the assistance and advice of a representative of the National Social Security Board.

Question.—How many applications for assistance have been received?

Answer.—About 190,000.

Question.—How many applications do you believe will be approved by July 1?

Answer.—Approximately 40,000.

Ques.—What about the payments to those old people whose applications have not been approved by July 1?

Answer.—The Commission will continue investigating applications for assistance, and as each application is approved, the applicant will receive a check for all payments beginning July 1. Aged applicants who are found to be eligible after July 1, will receive back payments. This, of course, concerns those who applied before July 1 and are subsequently found eligible.

Question.—Payments will be based upon need as required by law?

Answer.—Yes. Payments will not only be based upon need but upon the amount of need. Old people who need more money will receive larger grants than those whose needs require less.

Question.—Is it true that after the first job of investigating the 190,000 applications, the operating expenses of the Commission will be paid by the Federal Government?

Answer.—Yes. We believe that a large part, if not all, of the actual costs of operation—after the 190,000 applications have been investigated—will be paid by the U. S. Government. The 5 per cent expense allotment allowed Texas by the Social Security Board will be sufficient, we believe, to cover the ordinary running expenses of the Commission.

RABIES CONTROL RULES ARE GIVEN

AUSTIN, June 15.—Rabies is increasing in prevalence in many parts of Texas, although it may be controlled and even could be exterminated by intelligent measures, according to records of the State Health Department. Unfortunately it has been the practice to wait to apply control measures until the disease is widespread.

The dog is the chief source of rabies infection in man, but all warm-blooded animals are susceptible. Contrary to a wide spread belief, rabies is not a warm weather disease. It occurs just as frequently in the cold months. The most logical procedure in the control of rabies would be to vaccinate all dogs. Where this is impossible the stray dog should be impounded, for the stray dog is chiefly responsible for the spread of rabies.

Public health authorities are handicapped in their fight against the spread of rabies because rabies in humans occurs only infrequently. However, it must be remembered that rabies is 100 per cent fatal once the disease has developed. Treatment is the only preventive and must be taken in time.

Do not kill the dog that is behaving strangely or immediately after it has bitten some one. The animal should be captured and kept under observation for ten days to determine whether it has rabies or not. The confinement should be amply secure, for a dog in the frenzy of furious rabies requires a much stronger collar and chain or enclosure than a non-rabid dog.

When the rabies is put into the body by a biting dog the virus travels slowly from the wound along the nerves until it reaches the brain and spinal cord. Thus if the bite is on the face the virus does not have far to travel to reach the brain. Consequently bites on the face are most dangerous and immunization must be started at once.

It is possible to control rabies, but owing to the large territory included in Texas, it will take extra efforts on the part of public health workers and the co-operation of the people of each town and county to carry on an educational program for this control.

LATEST HOUSEHOLD HINTS ILLUSTRATED

Timely pictures and articles for the thousands of women who are following the popular trend to electric servants

KITCHEN PLANNING SAVES STEPS

By intelligent planning of the modern all-electric kitchen, housewives are saved hundreds of unnecessary extra steps every day. In the kitchen above, the modern electric range at the left is adjacent to the sink and dishwashing unit, and the smooth, unbroken work surface upon which the housewife is making an apple pie. When the pie is ready for the oven, only one or two steps will be necessary to reach the range. Likewise, by the modern miracle of electricity, the timer-clock shown on the range may be "set" after the pie is placed in the oven, and this unique "chef's brain" will turn off the oven automatically when it is done. This modern method of "absent" cookery, as it is called, enables the housewife to perform other household duties or even to leave the house entirely, with perfect confidence that her dessert or oven-meal will be safe under the watchful eye of the timer-clock. Convenient arrangement of refrigerator and cupboards are other attractive features of this modern kitchen.

SOOTHING HOT BATH IS BEAUTY AID

Not only because it cleanses thoroughly but because it improves circulation, relieves tired muscles and contributes to sound, restful sleep is that old favorite—the hot bath—recognized by beauty experts as one of today's chief aids to beauty. Especially during the summer months, daily hot baths are essential for hot weather charm, beauticians agree. Modern women, such as the one pictured above, make soap and hot water their first rule for beauty, and insure an unfailing supply of hot water, ready for instant use at any time of the day or night, by turning again to the miracle of electricity. Electric water heating has eliminated annoying, "tank-patting" basement trips. Entirely automatic, the modern electric water heater requires no attention after it is installed and operates with surprising economy. For the hot-bath-for-beauty formula, the generally prescribed temperature for the water is 100°-103° F.

READERS READ

WHAT THE PRESS OF TEXAS MEANS TO ALL TEXAS

Is there a small town publisher in the state who fully realizes just what his paper, as an integral part of the "press of Texas," really means to Texas . . . to his city and county? Very few editors and publishers have sought to stress their importance with their business . . . many of these smaller town publishers have gained prominence in local civic and political channels, quite a few have gained state wide prominence and some have won national acclaim.

No longer is the bank the most outstanding business of a small town or small city . . . no indeed the newspaper is the **MOST** important, the **most** useful, the **most** sought after and the **most** powerful . . . many newspaper publishers are

bank directors, they realize how puny the influence of the financial institution is, as compared to the local paper.

Conclusions of the behavior of molecules, which are far too small to be seen, even with the best microscopes, were determined by x-ray diffraction, which produces photographic patterns of the reflecting or splitting of x-ray beams they pass through an oil film.

The scientific principles behind the formation of the film involve the molecular structure of lubricants

and grew out of the discovery that

certain chemicals are made up of

"long chain" molecules, with a

greater power of attraction at one

end than at the other. The forces

which are present on all metal surfaces and are responsible for the

phenomenon known as friction, dis-

sipate themselves by attracting and

holding the "magnetic," or polar,

ends of these molecules.

The orderly arrangement of the

molecules, with their polar ends

practically buried in the surface of

the metal, appears to have a disci-

plinary effect, described by chemists

as "recognition," on the mole-

cules of the oil itself, resulting in

a surface that approaches the

principles of self-lubrication and needs

new oil only to keep it "alive" and

to repair the effect of scratches,

grit and other damage.

The chemical used in field tests

OIL WHICH "PLATES" EXPLAINED BY CHEMISTS

PONCA CITY, Okla. June 15.—Oil that "marries" metal and combines with the wearing surfaces of automobile shafts and bearing to form what is virtually an oil-plated productive layer was explained to-day by chemists of the Continental Oil Company who reported the scientific details of the development at recent meetings of the American Petroleum Institute and American Chemical Society.

The "plating" of the metal is said to be accomplished by adding to mid-continent mineral oil a new

chemical with so strong an attraction for metal that minute layers of the

lubricant are locked tightly to the

surface of the moving parts, forming

what is virtually an amalgam or

"plating" on the metal. The resist-

ance of this plating to being "wiped

out" is so great that the film con-

tinues to lubricate under greater

heat and stress conditions that were

formerly possible, and cannot be en-

cealed by any process short

of actual grinding.

The scientific principles behind

the formation of the film involve the

molecular structure of lubricants

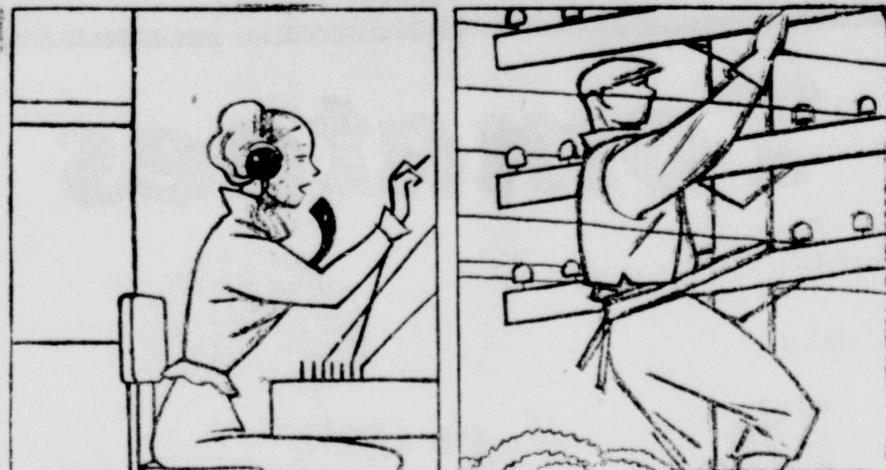

and grew out of the discovery that

certain chemicals are made up of

"long chain" molecules, with a

greater power of attraction at one

end than at the other. The

PEOPLE MAKE THE TELEPHONE SYSTEM

Poles and wires and switchboards alone don't make a telephone system. You've got to have people.

You've got to have men and women and children that want to talk with each other. You've got to have operators sitting night and day before the switchboards. You need to have linemen willing to go out when the lines are down, and work with a 40-mile gale lashing sheet and snow into their faces.

It's **folks** that make a telephone system. When you figure out why service is better than it used to be, you find it's just **people** at work—men working problems out on American Telephone & Telegraph Company's staff, and inventors in Bell Laboratories, and the like.

The goal of the people who work for the Bell System is to furnish the people who use telephones with a service that is fast, and clear, and moderate in its cost to the user.

SOUTHWESTERN BELL TELEPHONE COMPANY

If you visit the Texas Centennial, Dallas, June 6 to Nov. 29, you are invited to see the Telephone Exhibit.

MRS. J. P. ATWOOD

CLAIMED BY DEATH

Mrs. J. P. Atwood passed away on Friday, June 12, while undergoing a serious operation in a San Antonio sanitarium. She was at the time of death was 35 years, 4 months, and 18 days.

Mrs. Atwood's maiden name was Eva Dennis. Most of her girlhood days were spent at Moran, Texas. She was converted and joined the Church of Christ at the age of 14 years. She was married to J. P. Atwood in 1921. The family moved to Fisher County in 1923, and have lived near Hamlin ever since.

Mrs. Atwood maintained a cheerful disposition throughout her long illness. The loved ones she left behind will miss her sweet face, loving words, and cheerful smiles, but we now that she is even happier in her home where there's no shutting.

Surviving are her husband, three daughters, Joyce, Frankie, and Marie; her parents, Mr. and Mrs. H.

C. Dennis, and two brothers, Frank and E. C.

Funeral services were held Sunday afternoon at the Moran Church of Christ, conducted by Rev. Jackson of Moran, and Rev. Hill of Abilene.

The body, in charge of Barrow Directors, was placed in its final resting place in Dennis Cemetery near Moran.

OTIS MILLER ASKS FOR SECOND TERM

ASKING FOR SECOND TERM FOR DISTRICT ATTORNEY ON BASIS OF HIS RECORD AND FIDELITY TO DUTY

OTIS MILLER

In the Sunday issue of the Abilene Reporter-News for January 19th, 1936, I announced for re-election to a second term as District Attorney of Taylor, Jones and Fisher counties. Since that time, at the eleventh hour, opposition has developed. I am 43 years old and in all my 22 years of voting in the Democratic party I have always held to the accepted Democratic doctrine that if a man made a good record during his first term that he was entitled to a second term, especially if the office he held was a two year term office such as the district attorney's office. The people of Taylor, Jones and Fisher counties will remember the up-hill fight I waged little more than a year ago to win the office, having had to go through two primary elections, and I believe that on the basis of what I have accomplished as your District Attorney in one year and five months I am entitled to a second term in the office.

I do not believe that a man in office is entitled to a second term unless he has a record to stand on. I am not asking for a second term as your District Attorney solely on the theory that a man, regardless of his record, is entitled to a second term. I am asking that you investigate my record and if you find that I have stood **four-square** for law and order, if you find that I have stood one hundred per cent for law enforcement, if you find that I have safe-guarded public morals, in short, if you find that I have stood for all that is right and fair and decent in society, in both my public and private life, then I sincerely invite you to **not** only vote for me for a second term as your District Attorney, but that you tell your friends and neighbors that you believe that I am entitled to a second term.

If I may be permitted to do so without in any manner getting away from my record as District Attorney, I believe my accomplishments for the people of Taylor, Jones and Fisher counties before I was elected District Attorney entitle me to a second term as your District Attorney.

Before I asked the people for the office of District Attorney I had rendered a signal service to the taxpayers of Taylor, Jones and Fisher counties by carrying on a state-wide fight for a special session of the Legislature to take the road bond indebtedness off the counties. I carried that fight to every county in Texas. The special session of the Legislature was called and the Road Bond Assumption Law was passed and today every county, in Texas, including Taylor, Jones and Fisher counties, has a tax rate from 20 to 50 per cent lower than it was before the law was passed. I spent over five hundred dollars out of my own pocket in carrying on this fight and in staying twenty-one days in Austin before the Legislature in seeing the law through to final enactment. This service will continue to redound to the benefit of the taxpayers of Texas, including the taxpayers of Taylor, Jones and Fisher counties, for the next 35 or 40 years, which was the period of time most of the bonds had yet to run.

I especially appeal to the voters of the District, and particularly to the voters of the city of Abilene, to recall the up-hill fight I waged little more than a year ago in the first primary and in the second run-off primary election when the argument was used against me that I was not an Abilene man. I believe the fair-minded voters of the city of Abilene and of Taylor county subscribe to the doctrine that the other two counties of the district are entitled to consideration in the matter of choice of the district are entitled to

CARD OF THANKS

Because of the impossibility of seeing each person individually, we take this method of expressing, in our feeble way, our sincere thanks and appreciation for every kind deed and word during the illness and death of our beloved son.

We especially wish to thank the boys who so generously gave of their blood. The girls, and boys and friends who assisted in the last rites, and each and every person who in any way assisted us. May God in His wisdom and goodness bless and be with you and deal with you as you have us is our earnest prayer.

"The Store Ahead"

Hamlin, Texas

**Report of WPA Work Done
 Or Under Way In County**

From JOHN M. HENDRIX, Publicity Department, Works Progress Administration, District No. 13, Abilene, Texas.

A check of the activities of the Works Progress Administration in Jones County shows, as the current program draws to a close on June 30, that an average of 350 men and women have been employed in the building of roads, municipal improvements and other need projects.

In Anson, a \$25,000.00 is 50 per cent complete. The work consists of constructing a dam and other necessary work for impounding water to add to the supply for the City of Anson. This project is giving employment to 30 men. In Stamford, work has been completed at the municipal swimming pool. This project cost \$4,401.00, of which WPA funds were \$3,363.00 and sponsor's \$1,038, which consisted of landscaping and improving the grounds surrounding the pool. Thirty men received employment for 4 months on this project. Another project, consisting of graveling 3.2 miles of street in the City of Stamford, is 50 per cent complete. This project is providing work for 37 men.

Improvement to the Hamlin sewer system is 70 per cent complete, and consists of replacing present sewer pipe with 12, 10 and 8 inch vitrified clay pipe. Approximately 30 men have received employment for the past six months on this project.

Throughout the county, 24 miles of gravel road, with necessary fencing, drainage structure and clearing, with 18 miles yet under construction. Sixty-eight men have been given employment for six months on the project.

Sixty-five per cent of the 3.76 miles of caliche base course have been completed on Highway No. 4 near Hamlin. This project is giving work to 30 men, and is a WPA project sponsored by the State Highway Department. It completed one of the few gaps in No. 4, a most important highway to West Texas.

Repairs at the Hawley school have been completed, which included repairs to the building, painting both inside and outside, and improvements on the ground. The total cost of this project was \$1,448.00, of which WPA funds were \$1,107.00 and sponsor's \$341.00. Twenty men

were employed for three months. The Hawley project is number one project to be filed with WPA office in Abilene.

Fifty-one women are employed in the sewing rooms of Jones County with an average output of 150 garments a day which are distributed to the needy of the County. These sewing rooms are located in Anson, Hamlin and Stamford.

A tax survey of the County has given work to 14 people since Dec. 15. An N. Y. A. project on a city park in Stamford will give employment to 30 youths.

Two of the road projects being operated in the County are on the Abilene-Lueders road, connecting with a WPA project which has been completed on a road in Taylor County.

While technically the Works Progress Administration program expires on June 30, it is anticipated that the program will be carried on for a period during the ensuing year, which will enable various road projects in the county to complete additional units and effect connections with other farm to market roads and highways.

**STAMFORD'S TEXAS
 COWBOY REUNION**

STAMFORD, June 16.—Although there will be many worthwhile attractions on the program of the seventh annual Texas Cowboy Reunion to be held in Stamford July 2, 3 and 4, the chief entertainment feature of the Reunion will be the rodeo, featuring the cowhands from the ranches.

Word has been received from numerous contestants and visitors of former years that they will be on hand this year when the gates swing open on July 2. In addition many Centennial visitors to Texas are expected to visit Stamford during the Reunion to witness a rodeo that has been classified as "an authentic survival of a typically Western institution." Former years have seen

crowds of 50,000 and 55,000 visitors here during the three days. This year conservative estimates place the attendance at an even greater figure.

Seven rodeo events are on the card for this year's show. Three rodeo performances will be held each day during the Reunion—morning, afternoon and night. Cash prizes in the rodeo events total \$1600. Prize saddles, boots, spurs, hats and other premiums will swell the total price list to approximately \$2500.

Cash prizes will be given in bronc-busting, calf-roping, steer-riding and wild-cow milking each day. A special junior steer-riding contest will be staged at night performances on July 3 and 4, and the winners will receive cash prizes. Cowboys over 55 years of age will compete for honors on July 2 and 3 in a special calf-roping contest, the winner to receive a hand-made saddle.

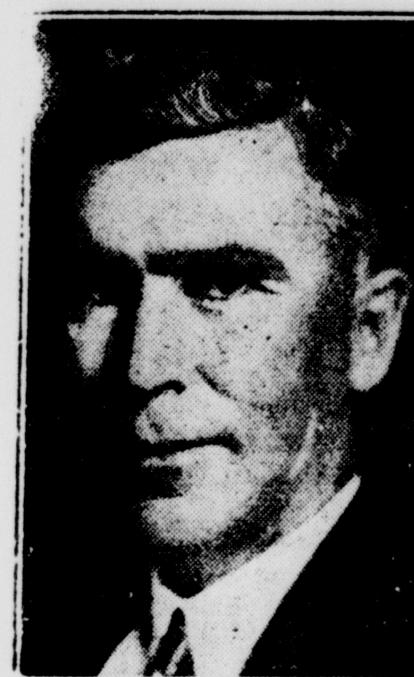

In addition to these attractions, a cutting horse contest will be held on the morning of July 3. This contest has always been popular with the spectators, because more of it depends upon the skill of the horse than the ability of the rider. It is particularly popular with the cowboys who like to boast of the skill and intelligence of their horses. Each contestant must cut five head of cattle designated by colored ribbons, out of a herd. The horse and rider doing the job with the greatest skill and speed wins the contest and prize, a fine hand-stamped saddle.

A change has been made in the rules of the cutting horse contest in that there will be no elimination contest as in former years. The entire contest will be held on the morning of July 3, the horses being given their final rating by the judges at that time. Certain changes will be made in the manner of conducting the contest, in order to give the rider a better chance to show his horse.

He is a poor sport who doesn't take a chance on a sure shot.

**ABILENE ATTORNEY
 IN RACE FOR
 DISTRICT ATTORNEY**

THOMAS E. HAYDEN

TO THE VOTERS OF THE
 104TH JUDICIAL DISTRICT:

In placing my candidacy for District Attorney of the 104th Judicial District before the voters of Fisher, Jones and Taylor Counties, I deeply realize the responsibility connected with this office. The rights and liberties of our citizenship are either imperiled or safeguarded by the type of men chosen to enforce our criminal laws.

I was born and reared on a stock farm near Moran. I attended Stamford College, Polytechnic College, and completed my Academic and Law Work at the University of Texas. I taught school for two years, and served ten months overseas during the World War. I have practiced law fifteen years in Abilene, served four years as City Attorney, and four years as Mayor, voluntarily retiring at the end of my second term.

If elected, I shall at all times cooperate with the District Judge, the grand jurors, and the peace officers, and shall never prosecute anyone, but will prosecute those cases warranted by the evidence, and in the preparation and trial of each case, shall endeavor to be courteous and considerate of the rights of all parties before the court, and will so conduct myself in the prosecution as to impel public confidence.

I want to meet and know personally each voter in this District before July 25th, but if time will not permit, I trust you will make a thorough inquiry into my qualifications from those who know me, and if my training, reputation, integrity, and experience, qualify me for the duties of this office, your vote and influence will be appreciated.

Sincerely,
 THOMAS E. HAYDEN

**HELPS TAKE LOAD
 OFF OVERWORKED
 STOMACH**

"Stomach Troubles," due to excessive acidity, are probably among the most common ailments of suffering humanity, but it is no longer necessary to suffer the discomforts caused by these acid conditions, without the benefits of a remarkably successful prescription, known as Gasa Tablets, now available at your drug store. Because of modern habits of eating foods too highly refined; eating too much; overwork, worry, nervous strain, and other causes, millions of men and women are suffering from disturbances of their digestive systems due to acidity and this is often the real cause of ill health, tired-out, run-down feeling, loss of "pep" and the zest for living. If you suffer from indigestion, atonic dyspepsia, sour stomach, gas pains, "raw stomach," inflammation of the intestines, (enteritis), gastric acidity and sick headaches, don't delay another day. Take Gasa Tablets and get relief. Gasa Tablets are intended to soothe the raw, inflamed lining of the "acid stomach," and to help convert starchy foods into dextrose, which is so essential to energy of the body, and preservation of health. For only a few cents a day, you may now have the benefits of this Doctor's Prescription which has helped so many other sufferers to a greater joy of living. Ask your druggist — the man you can rely upon for advice — for Gasa Tablets today. The first bottle must produce results or money back."
